

Cost-Effective Bluetooth Wireless Product Development Training

Let MindShare Bring “Cost-Effective Bluetooth Wireless Product Development” to Life for You

Bluetooth wireless technology has shipped in over 1.5 Billion products worldwide yet is one of the most complex wireless standards to ever be developed. Those who develop the technology know just how complex it is. That’s why if you are actively developing or plan to develop Bluetooth wireless technology products, you can’t miss this short course!

MindShare’s Cost-Effective Bluetooth Product Development class is designed for newcomer to Bluetooth wireless technology. It gives you a board understanding of the technology so that you can reduce costs and time-to-market for your Bluetooth product development.

The money that you could save with the information from the class will easily pay for the class itself!

You Will Learn:

- How to reduce your Bluetooth product time to market
- How to cut unnecessary costs
- How to Assemble the right resources
- Things to avoid (common mistakes)

Course Length: 1 day

Who Should Attend?

Bluetooth product managers, program managers, team leaders and executives

Course Outline:

- Defining Project Success
- Bluetooth Technology Overview
- Bluetooth Wireless Resources
- Assembling the Right Team
- Choosing your Technology Platform
- Developing your Product
- Qualifying your Product

Recommended Prerequisites: None

Course Material:

MindShare Presentation: Hardcopy and Softcopy of ***Cost-Effective Bluetooth Wireless Product Development*** course materials.
